## Coronavirus Update to ITL Customers

The current global healthcare crisis caused by COVID-19 is of course of critical importance and ITL is aware of the critical role it plays in the supply chain of a wide range of live-saving medical devices, diagnostic instruments and healthcare products.

ITL's leadership team has been reviewing the situation on a daily basis, and is complying with advice issued by the UK Government in order to safeguard staff and continue to supply critical goods. We will continue to do this as the situation develops during this challenging time.

Should the situation change, ITL will adapt its business accordingly, and will continue to follow advice issued to it by central government.

We will of course, keep you informed of any developments that affect the supply of your goods as they happen.

For and on behalf of ITL Group
