Coronavirus Update to ITL Suppliers

ITL is a global supplier of critical medical, diagnostic and analytical instrumentation to a wide range of customers in a variety of markets. At the current time, the ongoing health crisis across the planet has led to an increase in demand in many of these markets and as a top-tier supplier ITL is under increasing pressure from its clients to ensure continuity of supply.

As a valued supplier of ITL, we appreciate that your organisation plays a critical role in ensuring that we are able to continue this supply at this time. ITL's senior leadership team would like to re-emphasise that ITL's manufacturing facilities will continue to operate until UK Government advice indicates otherwise and, as a result, we will continue to need to work closely with you as part of our valued supply chain.

ITL requests that, where possible, its requirements are prioritised within your procurement and production processes so that we are able to continue to together make a difference in this current climate.

Furthermore, we would be grateful if you would inform us if, for any reason, you become unable to continue to supply materials into ITL.

For and on behalf of ITL Group
